

Thoughts around the EDNA MoU(s)

EDNA Project Agreement

Current version : October 31st 2007

- What is / has been working :
 - Executive committee for setting priorities, solve conflicts and obtain resources
 - Scientific goals covering prototype + MXv1
- What is not / hasn't been working:
 - No longer any resources for the project manager to manage...
 - Lack of input from MX scientists
 - Does not cover the present situation:
 - Separate kernel
 - MXv2
 - Other developments...

Propositions :

- Separate EDNA kernel from EDNA MX, i.e. separate MoUs
- EDNA kernel MoU :
 - Steering committee with member representing the EDNA MX steering committee
 - Development coordinator at each site
 - Global development coordinator
- EDNA MX MoU :
 - Steering committee : existing EDNA executive committee
 - Project coordinator and liaison at each site
 - Global project coordinator(?)
 - Development coordinator at each site
 - Global development coordinator
